Part Three: True or False

Read each item carefully and decide if the statement is true or false. Write **T** or **F** in the blanks to indicate your choices.

_____ 1. The Flynn Effect refers to IQ decreasing with age.

_____ 2. The misuse of intelligence test can lead to labelling/stereotyping.

_____ 3. The number of years you have been alive is your mental age.

_____ 4. You can study for an intelligence test.

_____ 5. Determining intelligence strictly on IQ scores has become widely criticized.

_____ 6. Children taking the WISC-III may be asked to solve math problems orally.

_____ 7. Bias has been eliminated from IQ tests.

Value
17

Part Four: Written-Response Items

Respond to the following items on the blanks below the items.

4 1. List **four** factors that could affect a person's results on an intelligence test.

_____

_____

_____

_____

_____

4 2. Of Gardner's Intelligences, which **two** do you think are your strongest? Explain.

2 3. According to Cattell, what are "street smarts?"

3 4. Using the internet, a dictionary, a knowledgeable friend, etc., define "***idiot savant***" and provide an example.

4 5. We assess the capabilities of people every day, sometimes consciously, sometimes subconsciously. Take a moment and think of the people you interact with regularly. Who do you consider to be intelligent? How did you come to this conclusion?

In a paragraph or two, detail how you determine someone to be intelligent – list a few characteristics you assess intelligent people to have.

End of Assignment Booklet 3
After you have completed all items, submit your work to your marker.
