

# Experimental Psychology 30

Next Step Summer School (780) 467-7929

dylan.shott@eips.ca

## Course Description:

The focus of Experimental Psychology 30 is to provide an overview of the scientific approach to understanding human behaviour and mental processes. The aim of the course is to familiarize students with methods and concepts used in experimental psychology, including the key steps in the psychological research process. Throughout the course students are exposed to a variety of past and current psychological research and a practice project is completed to experience how the scientific method is applied in psychology. Students will be able to develop their skill to think more like a psychologist about information encountered in day-to-day living. Experimental Psychology 30 is a 3-credit course.

## Course Structure:

| Theme/Module                          | Section # | Content                                                                                                                                                                 | Assessment   | Due Date |

**Important Dates:** 1: Unit 1 must be completed and submitted by Wednesday, July 10th, 2024.  
2: Unit 2 must be completed and Submitted by Wednesday July 17th, 2024.  
3: Unit 3 must be completed and Submitted by Wednesday, July 24th, 2024.

### Resources:

- Access to EIPS Brightspace website ([eips.brightspace.com](https://eips.brightspace.com))

### Assessment:

Assignments are considered formative, meaning you have an opportunity to apply feedback from the teacher to improve your achievement prior to completing the unit summative assessments. Summative assessments have two parts: Part A consists of multiple choice, true and false, and matching questions to demonstrate knowledge of the lesson content; and Part B consists of one of the three written responses: WRI (responding to a straightforward question – explanation and support, communication), WRII (three source analysis – interpretation of sources, defense of position, communication), or WRIII (responding to others' views on a particular topic exploration and analysis, defense of position, communication).

As per EIPS Administrative Procedure 360: Learning Assessment Students will:

- 1.1. be active learners demonstrating their learning through opportunities provided by the teacher;
- 1.2. complete tasks to the best of their ability to demonstrate their achievement; and
- 1.3. fulfill the requirements of a missed summative assessment or demonstrate a different level of understanding through a reassessment opportunity.

### PowerSchool:

Make sure you are accessing PowerSchool regularly to monitor your progress and review assessment information. The due dates provided will be placed in the comment area for each assignment. This allows the teacher to keep track of your progress and to ensure you complete the course. If you are not going to meet a deadline, please contact your

teacher with a plan on when you expect to submit the missed assignment. This will be noted in the assignment comments. Any assignment not handed in by the due date will receive an NHI until the assignment is handed in. Late assignments will be flagged as late unless you have previously communicated with your teacher. Any assignment handed in will be checked off, when the assignment is assessed, a percentage mark will be entered. If something does not seem correct, or information appears to be incorrect, please contact your teacher so errors can be fixed promptly.

### **Academic Support:**

Students are required to check in and meet with their instructor(s) weekly. It is recommended that multiple check ins occur each week to ensure successful completion of academic course work. Students not adhering to the weekly check in schedule or failing to engage in the learning process will be removed from the course.

#### **Mr. Dylan Shott – Next Step Outreach**

Office Hours: Monday-Friday: 8:30 am - 1:00 pm

Next Step Summer School (780) 467-7929
