

Physical Education 10 (3 credit) Module

(Academic and Participatory Outcomes)

Connections for Learning

You Will Need A Coil Book to Complete This Module

Academic Outcomes - 197 marks
Participatory Outcomes - 25 marks

Grade —> ____/223 marks

Introduction:

Students learn which foods are crucial to wellness; how such foods affect current performance and future health, and discover how to choose nutritious foods. Students learn the importance of Physical Activity.

Entry Level Competencies:

What you need to know to be able to be successful in this unit.

Enthusiasm and willingness to learn will ensure success.

Exit Level Competencies:

What you need to do and be able to demonstrate to gain credit in this unit. When you have completed this unit you will be able to:

- *Identify and describe the interrelationships among food choice, nutrients and wellness.
- *Investigate the importance of high fibre and low fat diets in ensuring wellness
- *Interpret nutrition information labelling
- *Prepare, compare and analyze a wide variety of high quality nutritional foods
- *Research nutrition and fitness related careers
- *Analyze reliable and unreliable nutrition information
- *Research the relationships of diet and various diseases like heart disease, cancers, arthritis, obesity and diabetes.
- *Recognize the importance of physical activity to your health and well-being.

Food for Today — Chapters 2, 4, 5 & 6

1. Analyze the 2019 Canada Food Guide found in the coil and then summarize what you believe the recommendations are for a healthy diet. **(4 marks)**

2. Use the following chart to record what you have eaten in the last day. **(6 marks)**

Food Group	Number of Servings	Sample Foods	Main Nutrients
Grain Products			
Vegetables and fruits			
Milk and Milk Products			
Meat and Alternatives			

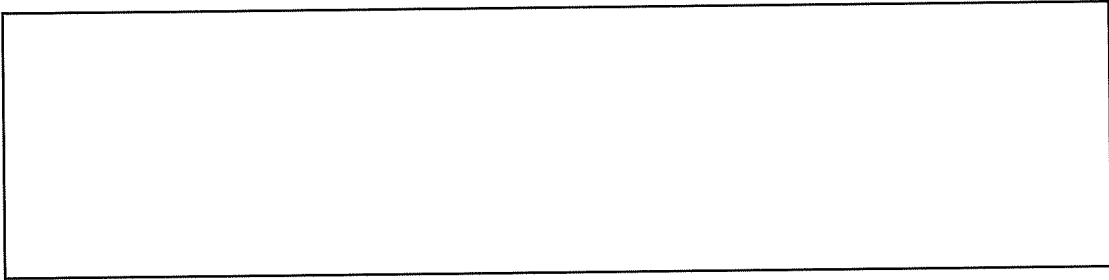

Read Pages 4 to 21 in the information package before answering question 3 through 7.

3. Fill in the spaces in the chart below with information about vitamins, or the vitamin names. **(7 marks)**

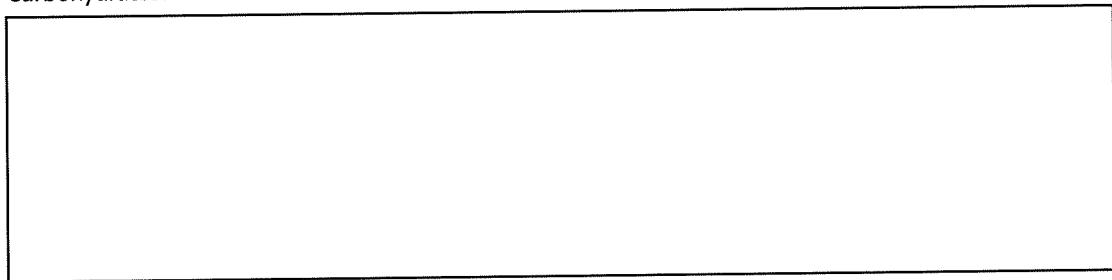

Vitamin	Information
	Citrus fruits are good sources of this vitamin. Helps the body to resist infection.
Vitamin D	
	Helps build red blood cells and form genetic material. Helps prevent birth defects (needed by women trying to get pregnant or who are pregnant).
Vitamin E	
	Helps the body release energy from carbohydrates, fats, and proteins. Teams with folate to help build red blood cells. Found in fortified foods.
Vitamin A	
	Helps the blood clot normally.

4. Describe the functions of the following in the body. **(8 marks)**

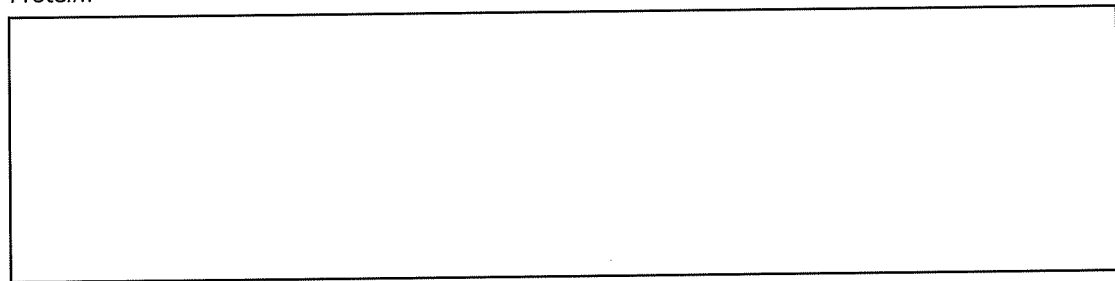

A) Water:

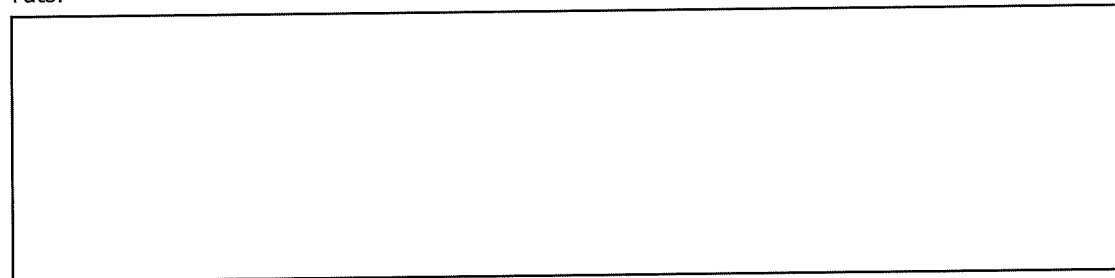

B) Carbohydrates:

C) Protein:

D) Fats:

5. Fill in the spaces in the chart below with information about minerals. Information should include the functions in the body and examples of food sources, or the name of the mineral. **(9 marks)**

Mineral	Information
	A lack of this mineral may lead to osteoporosis
Fluoride	
	Helps carry oxygen to the blood
Phosphorus	
	Helps build bone and make protein Helps nerves and muscles work normally
Iodine	
	Helps the body heal wounds and form blood Affects the senses of taste and smell
Sodium	
	Helps maintain the heartbeat Bananas are a good source of this mineral

6. Fill in the blanks on the chart below. The first was done as an example. **(10 marks)**

Condition	Discuss correct dietary and activity choices to prevent the following conditions.
Osteoporosis	Limit salt intake Weight-bearing exercise Food rich in calcium, vitamin D, phosphorous, milk, yogurt, broccoli
High Blood Pressure	
Diabetes	
High Cholesterol	
Eating Disorders	
Obesity	

7. Complete the following steps in using the Food Intake Worksheet below. **(15 marks)**

A) Plan a healthy menu for one day that includes 3 meals and snacks. This menu must follow the Canada Food guide recommendations.

B) Write a brief description of what was consumed, noting how the food was prepared (i.e. fried, baked, broiled, barbequed, microwaved, etc.), brand names if possible, and fat content, if known (especially dairy products).

C) Note the amount consumed, (i.e. cups, mLs, oz, grams)

D) Determine which food group the food/beverage falls into and then record accordingly,

E) Continue to list food/beverages planned to be consumed throughout the day and record in the chart. When complete, tally the number of servings for each food group and record in the second table.

F) The comments column will be used to note changes to food intake that may be required to help your daily intake align with the Canada Food Guide.

Meal	Description	Amount	Food Group (Carbohydrates, Fruit/Vegetables, Dairy, Protein, Fats, Other)	Suggested changes you could make to be more in line with the Canada Food Guide
Breakfast				
Lunch				
Dinner				
Snack #1				
Snack #2				
Snack #3				

	Carbohydrates	Vegetables/ Fruit	Dairy	Protein	Fats	Other
Total Servings						

8. Read the article on Toughness Training on pages 30 to 34 in the information package, and answer the following questions.

a. Psychologist James E. Loehr defines "toughness" as: **(1 mark)**

b. What qualities does "the ideal Performance State" have? **(1 mark)**

c. Loehr suggest we make five essential luxuries as part of our daily activity. List these activities and indicate which of these do on a regular basis. **(5 marks)**

d. List and discuss specific activities you do that fit these luxuries. **(3 marks)**

9. The following four Toughness Techniques are outlined in Toughness Training. Explain what is involved in each technique and give an example of how you can use this technique in a life situation. (2 marks each for a total of **8 marks**)

A) Think positively. Imagine yourself succeeding.

Description:
Example:

B) Recall successful moments.

Description:
Example:

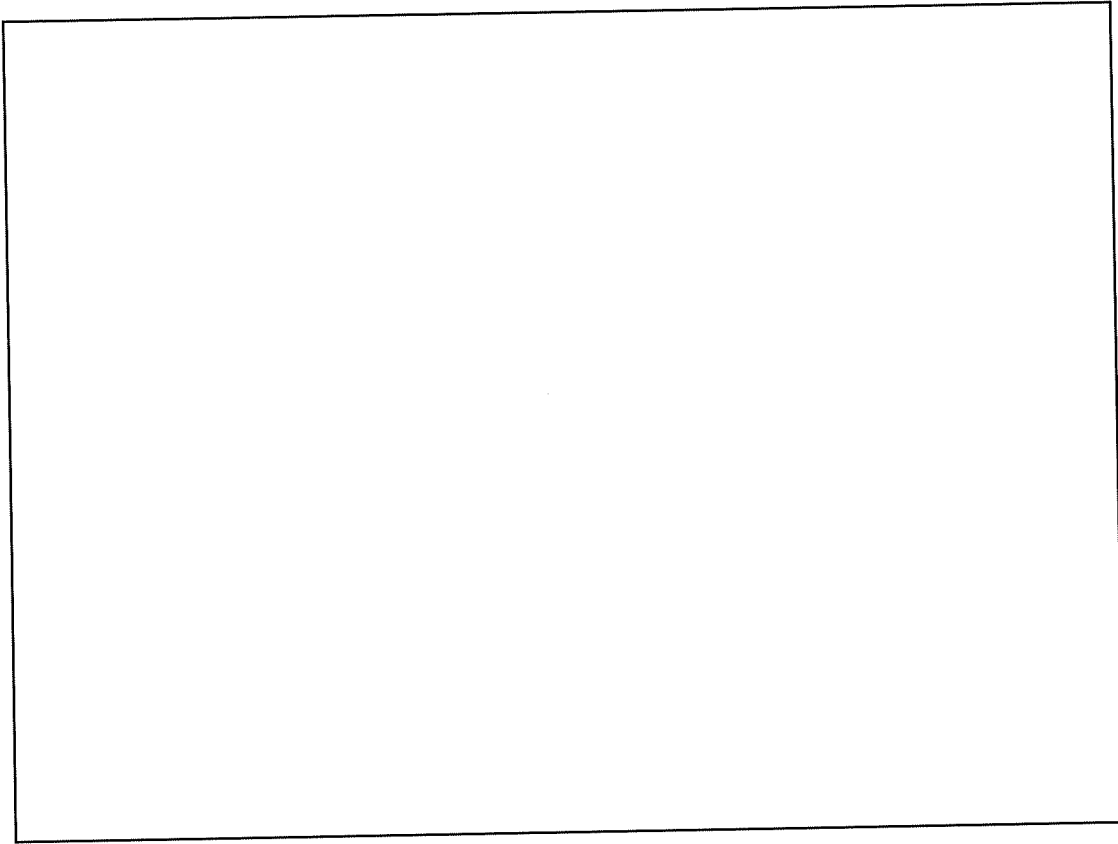

C) Become an actor.

Description:
Example:

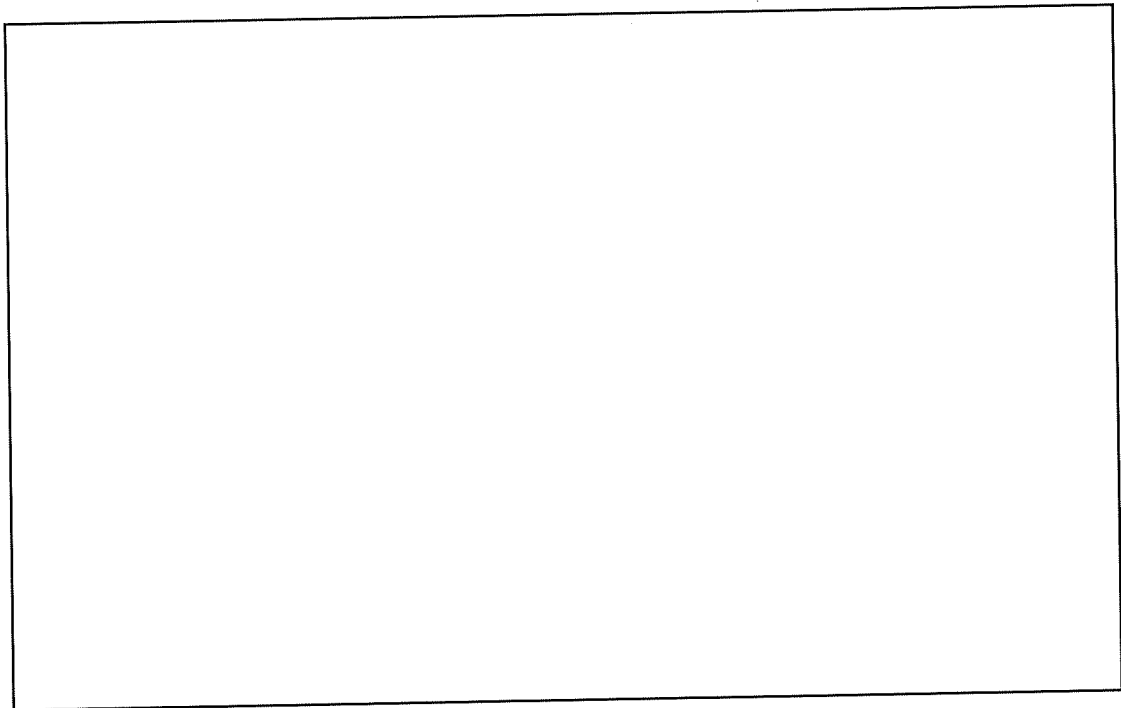

D) Replenish Energy.

Description:
Example:

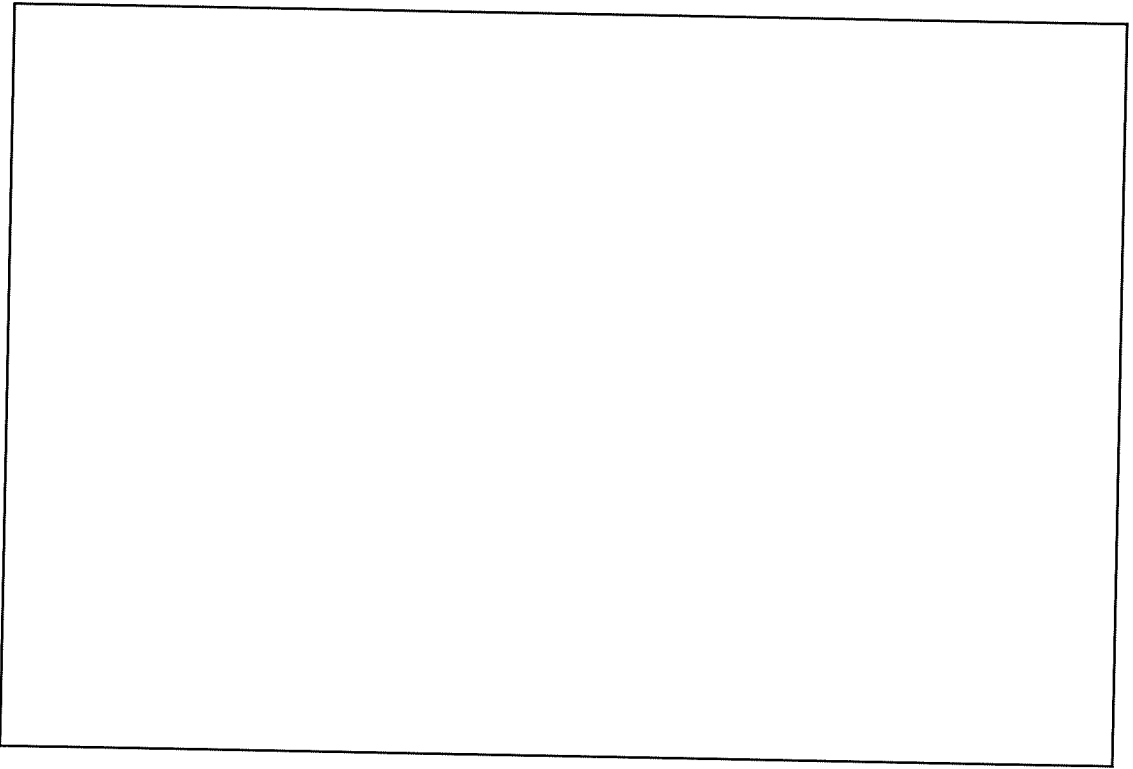

- 10.** It is important to be physically active by engaging in some form of lifestyle activities each day. List 5 physical activities that are or can be part of your daily routine. **(5 marks)**

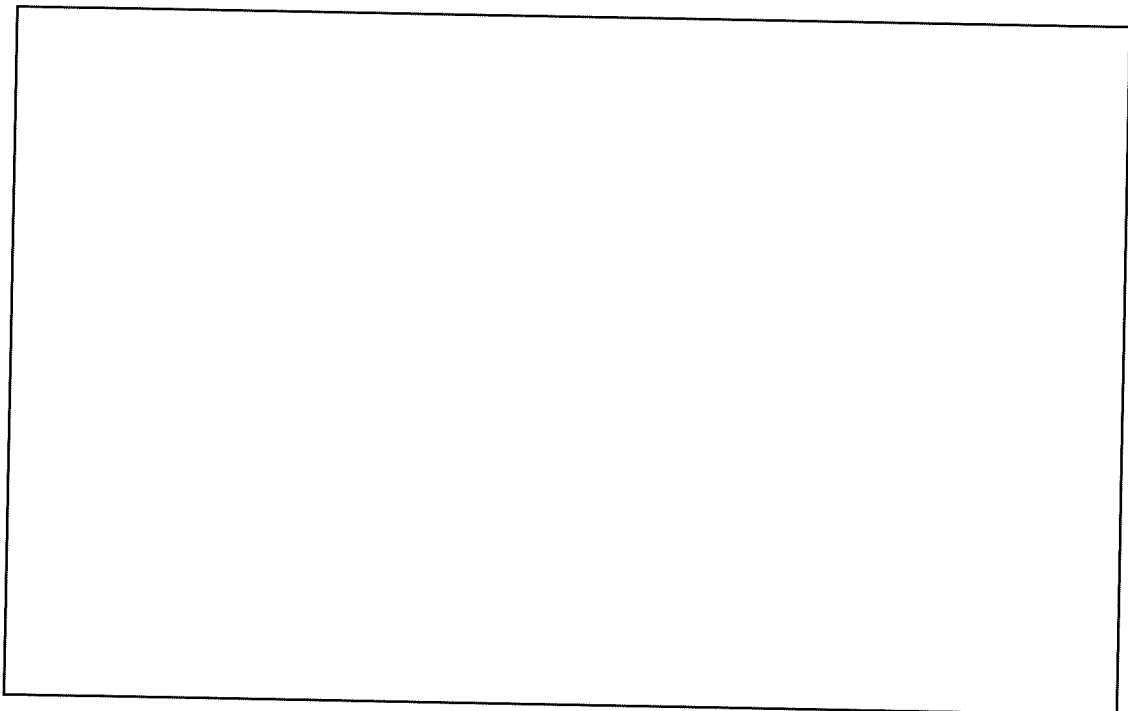

- 11.** There are many benefits to being physically active. Identify and explain the benefits of a physically active lifestyle, refer to both physical and emotional rewards. **(5 marks)**

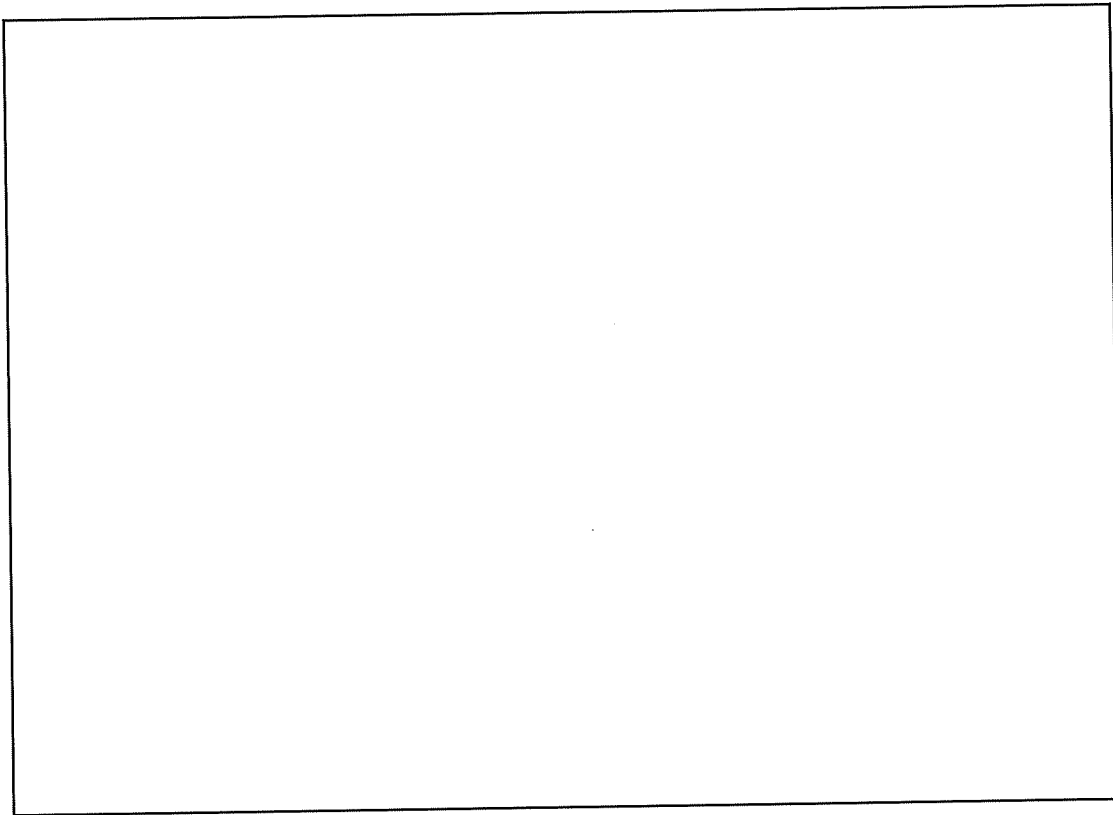

12. What is meant by the term aerobic exercise? What are the benefits of this type of exercise? Give four examples of activities that are aerobic that you do or are interested in trying. **(6 marks)**

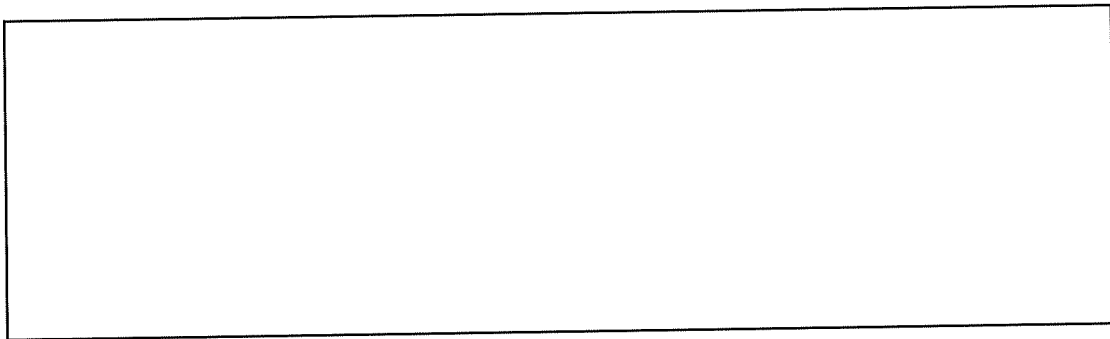

13. Why are flexibility and strength exercises important? **(4 marks)**

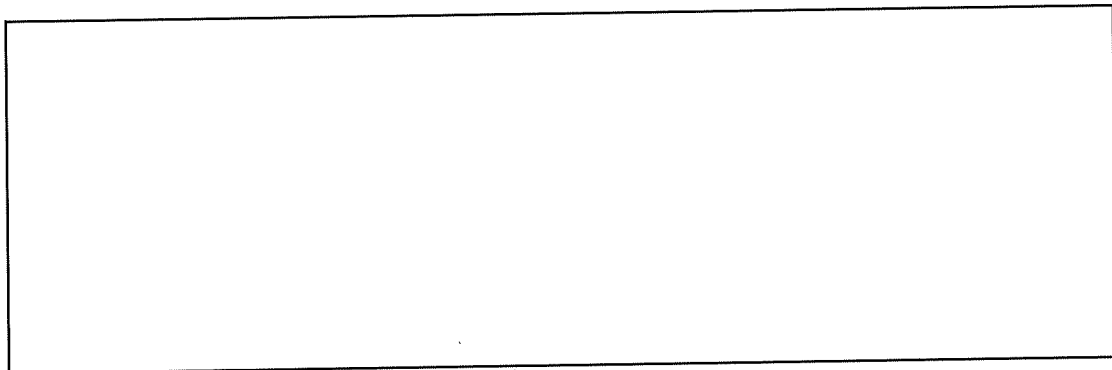

14. List four activities that would help develop flexibility and strength. **(4 marks)**

15. What can happen if an athlete doesn't replace water lost through perspiration? **(2 marks)**

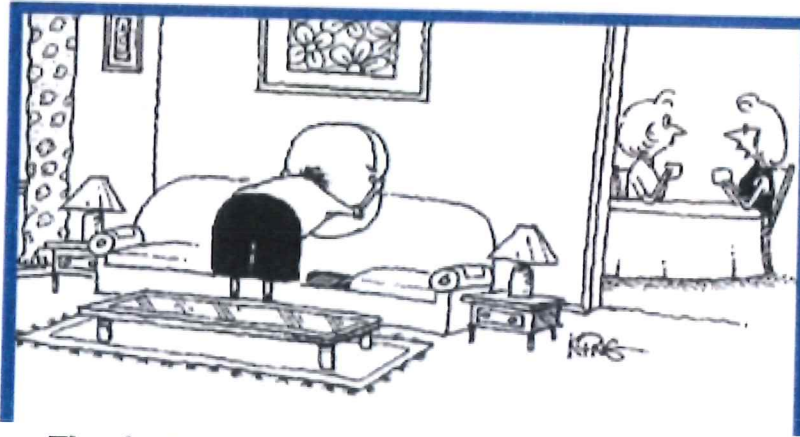

16. Explain when and how much water should be consumed. **(2 marks)**

17. Write a personal Essay. **(16 marks)**

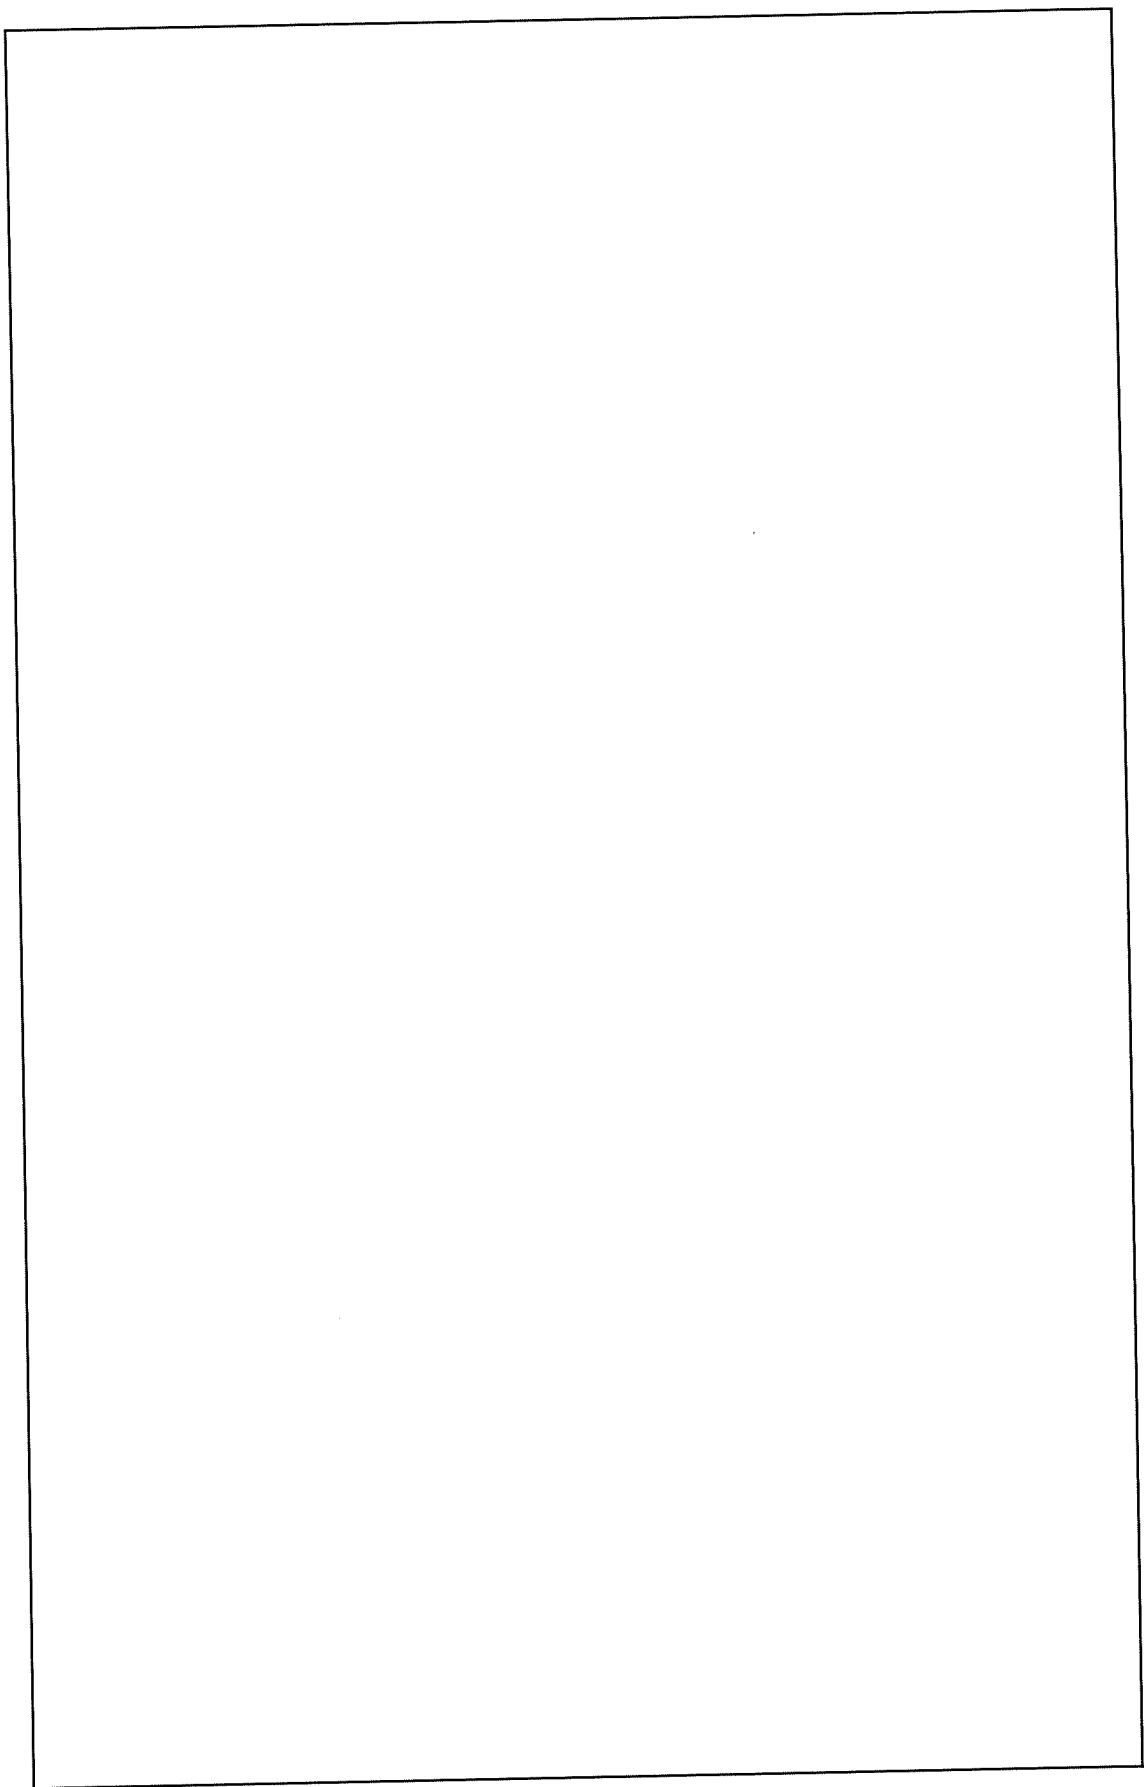

It should be no more than 3 pages in length, typed, double spaced and written in essay format. Your essay should address the key areas listed below. (each section will be marked out of 4 marks)

- Discuss the benefits of routine physical activity and healthy eating to you.
- Identify personal factors that may hinder your exercise program and healthy eating choices.
- What supports do you use or can you use to help you to continue your activities?
- Discuss goals and reward you have for an active healthy lifestyle.

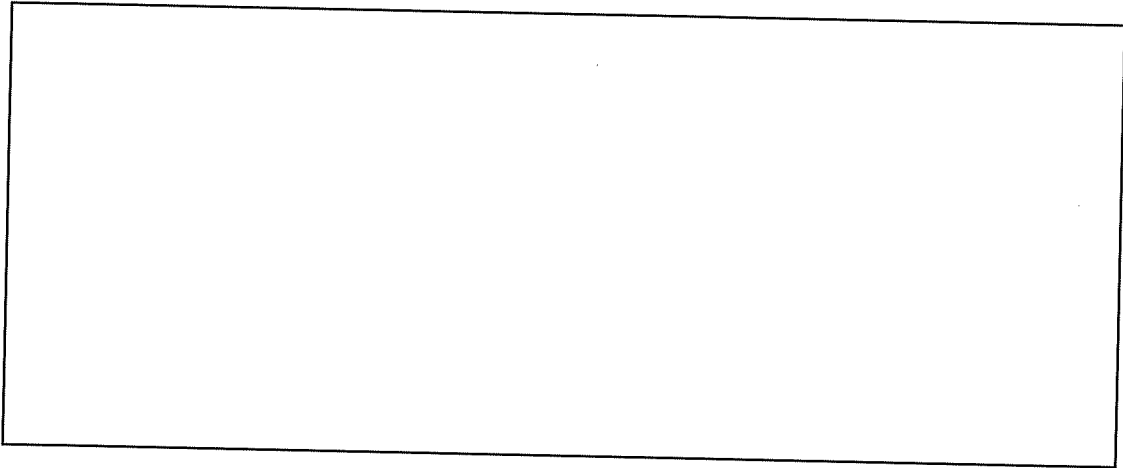

**The doctor said he needed more activity. So
I hide his T.V. remote three times a week.**

(Write your essay here)

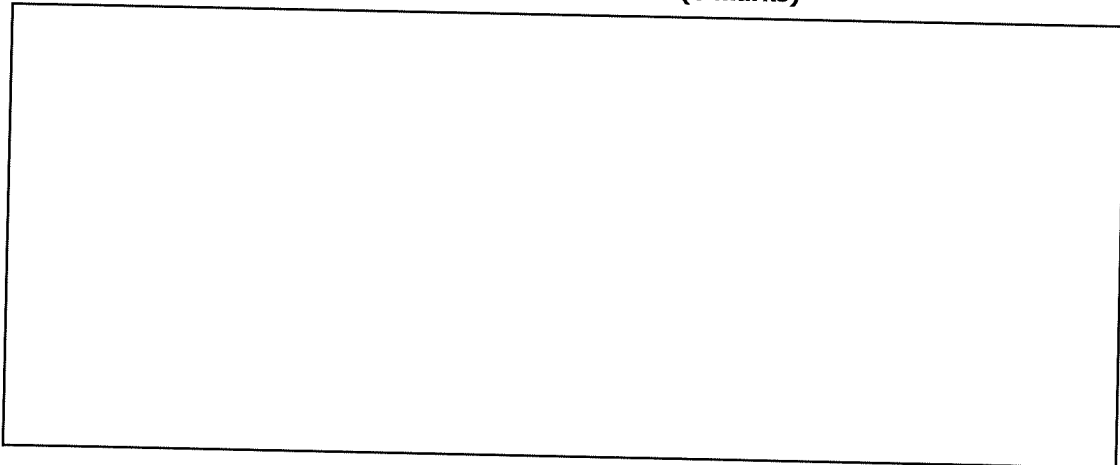

Read the training program information on pages 38 to 41 in the information package and complete the following activities.

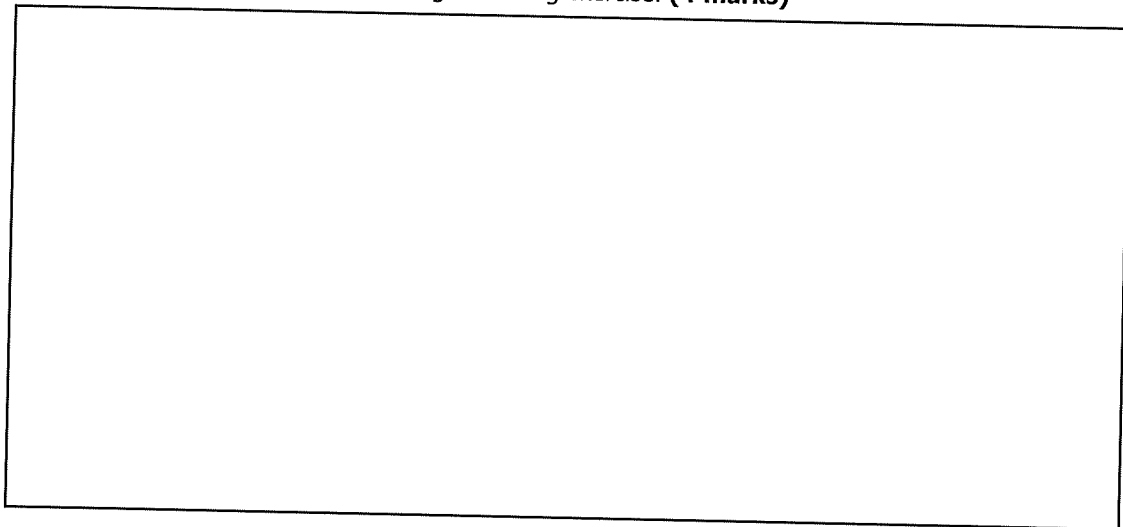

18. The article includes an example of a 10-week training program. Discuss why this is a good training program. **(3 marks)**

19. Read the articles on warm-up and cool-down for physically active people. List the benefits to your body of proper warm-up, stretching and cool down activities. **(3 marks)**

20. Indicate the proper procedure for doing stretching exercise. **(4 marks)**

21. Using the chart on below, develop a 5-week personal fitness activity plan that would work for you. Organize this in a chart format that will include the following information **(10 marks)**

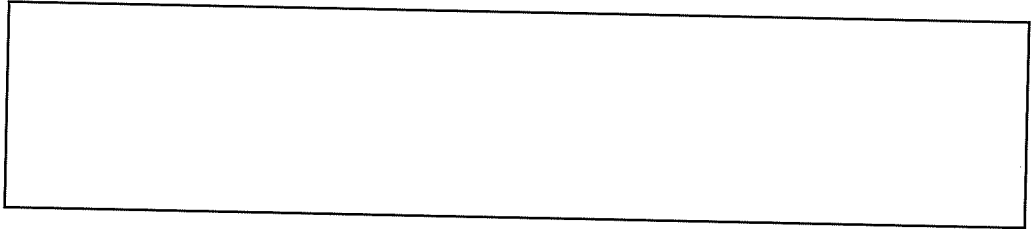

- Date
- Activity description and location
- Time
- Distance (if it applies)
- Weekly total of time

* Remember to gradually increase activity, intensity and time level. Include warm-up, stretching, and cool down in your activities.

	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Week 1							
Week 2							
Week 3							
Week 4							
Week 5							

22. In the article "Get Fit-Not Fat", found in the information package on pages 35 to 37, Brad King discusses the changes that can happen to aging bodies.

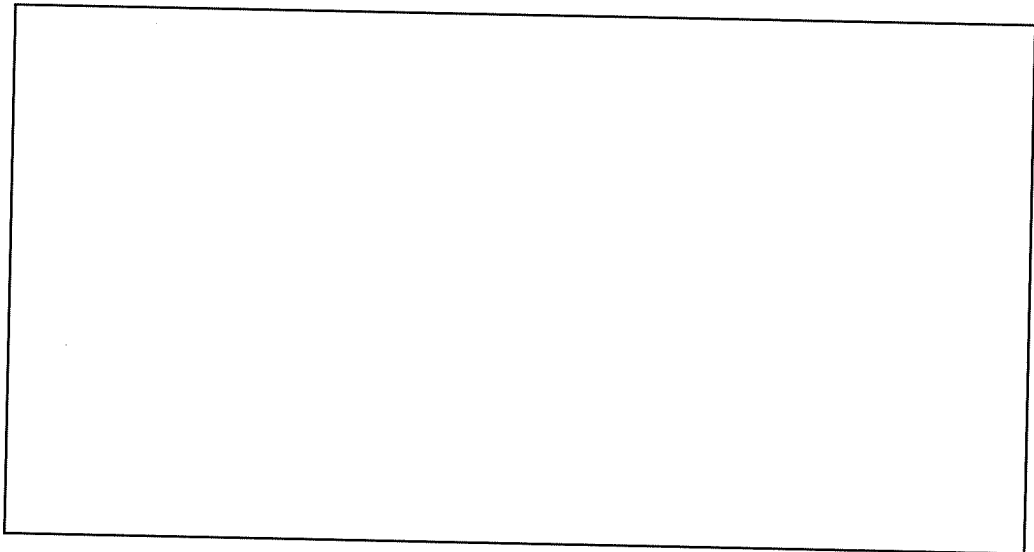

A) What does he predict for the average American body? **(1 mark)**

A large, empty rectangular box with a black border, intended for the student's answer to question A.

B) What does he say is the key to the metabolic engine of our body? **(1 mark)**

A large, empty rectangular box with a black border, intended for the student's answer to question B.

C) What is the authors recommended activity/exercise plan for a trim, healthy body? Why? **(3 marks)**

A large, empty rectangular box with a black border, intended for the student's answer to question C.

Goal setting

/15 marks

Goal setting is a useful strategy for achieving success. You can use goal setting as a skill towards improving yourself in many areas of life. For this course, we will use goal setting as an important element for success in a health and fitness program.

Setting a quality goal requires choosing something that is realistic and attainable. SMART stands for goals that are Specific, Measurable, Attainable, Relevant and Time Bound.

SMART Goals
Goals should be <u>specific</u> . Do they make sense?
Goals should be <u>measurable</u> . What are the outcomes?
Goals should be <u>attainable</u> . Are these goals realistic?
Goals should be <u>relevant</u> . Do these goals fit with your lifestyle and aren't just dreams? Are these goals the right goals to be setting?
Goals should be <u>time bound</u> . Do you have an end date for when you want to hit your goal?

<http://sprotshaw.com/fool-proof-your-success-with-smart-goal-setting/>

Different types of goal setting include:

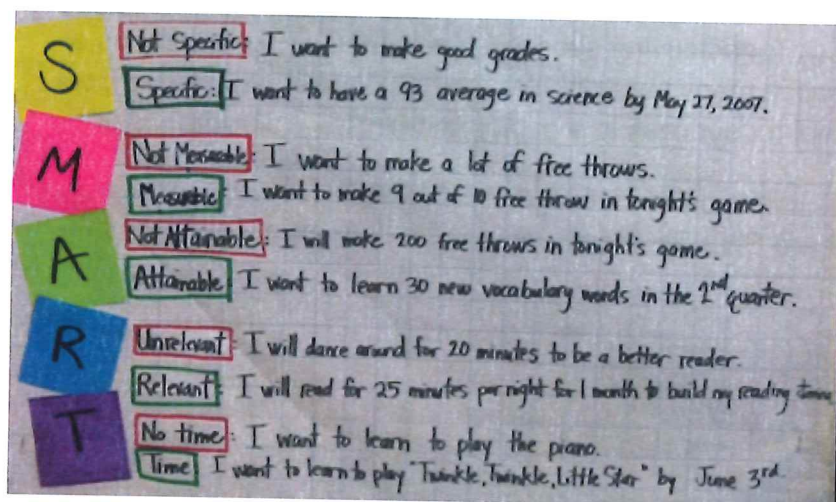

Short Term Goals are goals that are to be achieved in a short period of time. You can set these goals for as little as a couple of days or anywhere up to a month.

Ex. I will walk at least 30 minutes a day for the next week.

Long Term Goals are goals that may take months or even years to achieve. You can use your short term goals like stepping stones to achieve the greater long term goal.

Ex. I will increase my continuous running time from 1 minute to 30 minutes by the end of the semester.

Here are some examples of good and bad goal setting:

<http://counseloretc.wordpress.com/2013/05/14/smart-goal-setting/>

Use the SMART Goal Setting steps to create 2 short term and 1 long term goal that you plan to achieve during this course.

1. State your first **short term goal**: (5 marks)

Provide details of how your goal follows each of the SMART steps.

Specific	
Measurable	
Attainable	
Relevant	
Time Based	

2. State your second **short term goal**: (5 marks)

Provide details of how your goal follows each of the SMART steps.

Specific	
Measurable	
Attainable	
Relevant	
Time Based	

3. State your one **long term goal** for the semester. (5 marks)

Provide details of how your goal follows each of the SMART steps.

Specific	
Measurable	
Attainable	
Relevant	
Time Based	

Body Image/Performance Enhancing Substances/ Active Living Role Models

/36 marks

The aim of the Kindergarten to Grade 12 physical education program is to enable individuals to develop the knowledge, skills, and attitudes necessary to lead an active, healthy lifestyle. It is important to be informed about the key ideas above that can impact young people in their journey towards active living.

1. Media and peer influences on body image
2. Effects of performance-enhancing substances on body type and body image as a part of physical activity
3. Positive athletic/active-living role models

There are three parts to this assignment.

1. We would like you to share an interesting article, news story, or YouTube video related to each of the above topics. Please provide the link to the article as well as include the title of the article, who wrote it/published it, and what news publication or website the article was found in.
2. Write a one to two paragraph synopsis of the article, describing why you chose to share the article and it's key points.
3. Provide a personal reflection focused on how each issue may impact your ability to live an active and healthy lifestyle.

Use the following rubric as a guide when completing your assignment.

Rubric Total /12 Marks		3 Issues X 12 Marks per issue = 36 Marks	
	4	2	0
Quality of Article/ News Story/ YouTube Video	Source contains extensive and relevant information.	Source contains basic and somewhat relevant information.	Source contains little information with limited relevance. Student must resubmit assignment.
Synopsis	Synopsis shows very strong knowledge in a thorough and detailed paragraph.	Synopsis shows some knowledge in a paragraph with minimal details.	Synopsis shows very little knowledge in a paragraph lacking details. Student must resubmit assignment.
Personal Reflection	Reflection is well written and clearly identifies the impacts this issue could have on the student.	Reflection lacks a clear connection to the issue and its impact.	Reflection is either incomplete or does not meet the requirements. Student must resubmit assignment

Group 3 Outcomes - Student Reflection Prompts

The following are reflection prompts for each of the outcomes from Group 3 - Fair Play, Leadership, Teamwork (2), Effort (2), Safety, Active Living in the Community (2). Complete the prompts for the outcomes you wish to meet. **If you are doing the 3 credit course you only need to choose 5.**

Fair Play - Please reflect on how you demonstrated positive behaviours during the activities you participated in. Discuss how any rules/regulations for the activities impacted your participation.

Leadership - Please reflect on how you demonstrated leadership skills and how you demonstrated appropriate followership skills in your activities. How did these skills contribute to a better learning experience for you and for other participants?

Teamwork (2 Outcomes) - Please reflect on how you demonstrated teamwork in your activities.

What positive behaviours contributed to you working well with your teammates, that showed respect for yourself and others?

Effort (2 Outcomes) - Please reflect on how you were aware that you were showing a commitment to an active lifestyle through your participation in your activities.

Please reflect on how you developed a plan for your physical activity that was self-motivating and encouraged your participation.

Safety - Please reflect on you participated in your activities while demonstrating an awareness for the necessary rules, regulations and procedures to ensure the safety of all participants.

Active Living in the Community (2 Outcomes) - Please reflect on how you explored participation in active living in your community through your activities.

Please reflect on the type of healthy decision-making skills you developed throughout your program and how these skills will impact your physical activity in the community moving forward.
