Criminal Profiling

Instructions for Submitting Assignment Booklets

1. Submit Assignment Booklets regularly for correction.
2. **Submit only one Assignment Booklet at one time.** This allows your teacher to provide helpful comments that you can apply to subsequent course work and exams (if applicable).
3. **Check the following** before submitting each Assignment Booklet:
 - o Are all assignments complete?
 - o Have you edited your work to ensure accuracy of information and details?
 - o Have you proofread your work to ensure correct grammar, spelling, and punctuation?
 - o Did you complete the Assignment Booklet cover and attach the correct label?

Postal Mail

Determine sufficient postage by having the envelope weighed at a post office. (Envelopes less than two centimetres thick receive the most economical rate.)

Fax

Assignment Booklets may be faxed to Alberta Distance Learning Centre: **780-674-6977**

E-mail

Assignments may be e-mailed as attachments to the usual e-mail message to your teacher. Submit all assignments of any one Assignment Booklet at one time, ensuring that all activities are clearly labelled. Contact your teacher for his or her e-mail address.

Your **document** must be in Microsoft Word, Rich Text Format (RTF), or PDF format.

Your **e-mail message** must include the following information:

Subject: Student Name / Course Name
Message: Your Full Name
Your Student File Number
Course Name
Assignment Booklet Number

EXAMPLE

Subject: John Doe/Forensic Science 35
To: My Teacher@adlc.ca
Re: Assignment Booklet Submission

Forensic Science 35

Assignment Booklet 5

Assessment

For successful completion of this course, you must

- 1. Complete all questions in each Assignment Booklet to the best of your ability.**
Incomplete Assignment Booklets will be returned unmarked.
- 2. Achieve at least 40% on the final exam.**
In accordance with Alberta Distance Learning Centre policy, the final exam is worth 50% of the final course mark.
- 3. Achieve a final course mark of at least 50%.**

Process

- **Read the course material** before working on the activities in this Assignment Booklet. The *Forensic Science 35 Student Module Booklets* contain the information necessary for successful completion of your work.
- **Proceed carefully** through each assignment. Reflect upon your answers and prepare your written responses to communicate your thoughts effectively. Time spent in planning results in better writing.
- **Proofread your work** before submitting it for marking. Check for content, organization, paragraph construction (if applicable), grammar, spelling, and punctuation.
- **If you encounter difficulties or have any questions**, contact your course teacher at Alberta Distance Learning Centre for assistance.

Format

If you choose to **use a word processor** for your written work,

- format your work using an easy-to-read 12-point serif font such as Times New Roman
- include your full name and student file number as a document header
- double-space your final copy
- staple your printed work to this Assignment Booklet

Avoid plagiarism by acknowledging all sources you use. Contact your teacher if you are uncertain how to document sources.

Although you are encouraged to work collaboratively and discuss various aspects of this course with others, **all submitted work must be your own.**

Our Pledge to Students

Alberta Distance Learning Centre is committed to helping students achieve their educational goals. We look forward to assisting students who are sincere in their desire to learn. Students may contact their course teacher(s) by phone, e-mail, fax, postal mail, or in person at an Alberta Distance Learning Centre office.

Lesson 1 Assignment: Creating a Criminal Profile

Value
10

Part A: Multiple-Choice Questions

Decide which of the choices best completes the statement or answers the question.
Print the letter that corresponds to your choice on the blank next to the question.

- C** 1. Criminal profiling is the study of
- A. a criminal's abusive childhood
 - B. a criminal's antisocial tendencies
 - C. the abnormal psyche of the criminal
 - D. the suicidal behaviour of the criminal
- C** 2. One of the first formal criminal profiles created by Dr. Thomas Bond focused upon
- A. Adolf Hitler
 - B. Mad Bomber
 - C. Jack the Ripper
 - D. Boston Strangler
- A** 3. A criminal profile is used by police investigators to
- A. help narrow the list of suspects
 - B. generate a list of names of suspects
 - C. give the location of the suspect's victims
 - D. determine where the suspect will strike next
- D** 4. What is one way serial killers differ from mass murderers?
- A. They select their victims randomly.
 - B. Their victims are all of the same gender.
 - C. Their victims are all about the same age.
 - D. They select a certain type of victim that fulfills their fantasy.

- C** 5. Criminal profilers state behavioural and personality characteristics that
- A. describe the location of the next crime
 - B. describe a variety of different suspects
 - C. can be justified and explained using research data
 - D. can be used to find the location of the suspect's family
- B** 6. Why type of method would a typical serial murderer likely use to kill his or her victims?
- A. Poison
 - B. Strangulation
 - C. High-power rifle
 - D. Explosive device
- C** 7. Criminals with higher levels of intelligence tend to commit
- A. more crimes
 - B. fewer crimes
 - C. well-planned crimes
 - D. poorly planned crimes
- D** 8. The *Criminal Investigative Analysis Program* is a method that identifies indications at a crime scene that indicate
- A. motive or intelligence
 - B. anatomical knowledge or ancestry
 - C. physical stature or mental stability
 - D. personality traits or mental disorders
- C** 9. The gender of the suspect is often determined by the
- A. age of the victim and the physical evidence
 - B. occupation of the suspect and weapon
 - C. gender of the victim and the nature of the crime scene
 - D. ancestral background of the suspect and the geographic location

- B** 10. Little physical evidence and a crime scene that appears unaltered may indicate the crime was
- A. random
 - B. well planned
 - C. committed by a suspect over 25
 - D. committed by an individual male

Value
2

Part B: Numeric-Response Questions

Use the following information to answer the next question.

Examples of Criminal Traits

1. Illegitimate children
2. Divorced parents
3. Charming personality
4. Antisocial personality
5. Age range of 25 to 34
6. Age range under 25
7. Average or above average intelligence
8. Below average intelligence

- ① 1. Some traits found among many serial murderers include **1** , **3** , **5** , and **7** .

(State your answers from lowest to highest value.)

Use the following information to answer the next question.

Some Information from a Criminal Investigation

1. Age of suspect
2. Physical evidence
3. Weight of victims
4. Witness statements
5. Victim's autopsy results
6. Trends and patterns from past crimes

- ① 2. Some information that is used in the creation of a criminal profile is **2** , **4** , **5** , and **6** .

(State your answers from lowest to highest value.)

Value
8

Part C: Written-Response Questions

Provide appropriate answers to the following. Explanations are best given in sentences.

②

1. To create a criminal profile, with what do profilers compare the information from a crime?

Profilers compare

- ***scientific data from research completed about criminal behaviour and criminal personalities (1mark)***
- ***trends and patterns from past crimes (1mark)***

②

2. Explain why a criminal profile may be altered after it has been completed.

A criminal profile may be altered if

- ***new evidence come to light after the profile has been completed (1 mark)***
- ***none of the suspects fits the criteria (1 mark)***

②

3. What was George Metesky's motive for setting numerous explosive devices around New York City?

Metesky was angry with his employer because he was fired after trying to sue his employer for compensation after being injured in a work-related accident.

②

4. Discuss how Dr. James Brussel's profile helped to catch the *Mad Bomber*.

The profile suggested that the suspect was a past employee of Consolidated Edison. Therefore, personnel files from the company were reviewed to reveal a disgruntled ex-employee. George Metesky became the prime suspect who was eventually arrested.

25****Lesson 2 Assignment: The Use of Criminal Profiling in Homicide Investigations****Value
10****Part A: Multiple-Choice Questions**

Decide which of the choices best completes the statement or answers the question. Print the letter that corresponds to your choice on the blank next to the question.

- A** 1. By definition, mass murderers kill several people
- A. at the same time in one location
 - B. at the same time in two locations
 - C. over a long time at several locations
 - D. over a short time at several locations
- C** 2. Which type of murderer tends to use their charm to lure in their victims?
- A. Mass murderer
 - B. Spree murderer
 - C. Serial murderer
 - D. Multiple murderer
- C** 3. The behaviour of an offender tends to reflect the
- A. age of the offender
 - B. gender of the offender
 - C. personality of the offender
 - D. intelligence of the offender
- D** 4. What tends to motivate serial murderers to kill?
- A. Voices and visions
 - B. Empathy and remorse
 - C. Revenge and jealousy
 - D. Power and sexual compulsion
- B** 5. The victims of organized offenders tend to be
- A. spouses
 - B. strangers
 - C. senior citizens
 - D. family members

- D** 6. Which of the following is a characteristic of a disorganized offender?
- A. Contacts and plays games with police
 - B. Has average to above average intelligence
 - C. Maintains a controlled mood during crime
 - D. Often leaves physical evidence at crime scene
- D** 7. A criminal is considered to be a combination offender if he or she
- A. kills different types of victims at the various times
 - B. kills several people in more than two different locations
 - C. has one or two characteristics that fit the opposite offender profile
 - D. has an equal number of organized and disorganized offender characteristics
- C** 8. What type of killer was Ted Bundy?
- A. Mass murderer
 - B. Spree murderer
 - C. Serial murderer
 - D. Disorganized murder
- A** 9. What serial murderer subtype was Richard Trenton Chase?
- A. Visionary
 - B. Missionary
 - C. Thrill-oriented
 - D. Power-oriented
- A** 10. All of Jeffrey Dahmer's victims were
- A. young boys and young men
 - B. teenage boys and teenage girls
 - C. young girls and young women
 - D. middle age women and children

Value
3

Part B: Numeric-Response Questions

Use the following list to answer the next two questions.

Behavioral and Personality Traits of Organized and Disorganized Offenders

1. College education
2. High school dropout
3. Follows the news media
4. Minimal interest in the news
5. Older mature individual
6. Young immature individual
7. Lives or works near crime scene
8. Crime scene some distance from home

①

1. Behavioural and personality traits stated above exhibited by organized offenders include 1, 3, 5, and 8.

①

2. Behavioural and personality traits stated above exhibited by disorganized offenders include 2, 4, 6, and 7.

(State your answers from lowest to highest in value.)

Using the following information to answer the next question.

Description of Multiple Murders

1. Over a two-year period from 1988 to 1990, a 43-year-old man strangled and beat 11 different prostitutes to death in the New York State area. He dumped all his victims near the Genesee River.
2. On December 6, 1989, a 25-year-old male went on a shooting rampage inside École Polytechnique de Montréal in Quebec. He specifically targeted women during the shooting. In 20 minutes, he killed 14 women, injured 14 men and women, and then committed suicide.
3. In Australia, a 28-year-old man using a semi-automatic rifle killed 35 people and injured 37 others on April 28, 1996. The various locations of the shootings included a cafeteria at a popular tourist site, a gift shop, a parking lot, and a tollbooth.

①

3. Match the descriptions stated above with the correct type of murderer given below.

Description:	<u>2</u>	<u>3</u>	<u>1</u>
Type of Murderer:	mass	spree	serial

Value
12

Part C: Written-Response Questions

Provide appropriate answers to the following. Explanations are best given in sentences.

④

1. Identify four pieces of evidence that support the assumption that Ted Bundy was an organized offender.
 - **Average to above average intelligence**
 - **College education**
 - **Older mature individual**
 - **Socially competent**
 - **Good hygiene**
 - **Follows new media**
 - **Crime scene some distance from home**
 - **Dismembers body**
 - **Mobility with car in good condition**
 - **May change jobs or leave town**
 - **May use alcohol during crime**
 - **Leaves little physical evidence**
 - **Kills at one site, disposes body elsewhere**

④

2. Identify four pieces of evidence that support the assumption that Richard Trenton Chase was a disorganized offender.

Any four of the following are acceptable for 4 marks

- | | |
|--|--|
| • <i>Below average intelligence</i> | • <i>Anxious mood during crime</i> |
| • <i>High School Dropout</i> | • <i>Often uses alcohol or drugs</i> |
| • <i>Socially inadequate</i> | • <i>Leaves physical evidence</i> |
| • <i>Unkempt/Poor hygiene</i> | • <i>Kills at one site</i> |
| • <i>Sexually incompetent</i> | • <i>Leaves a chaotic crime scene</i> |
| • <i>Father unstable</i> | |
| • <i>Doesn't always have a steady job</i> | |
| • <i>Lives or works near crime scene</i> | |

④

3. Identify four pieces of evidence (two must be organized traits and two must be disorganized traits) that support the assumption that Jeffrey Dahmer was a combination offender?

Any two from each column are acceptable for 4 marks

Organized Offender

Disorganized Offender

- | | |
|---|---|
| • <i>Older mature individual</i> | • <i>Socially inadequate</i> |
| • <i>Average to above average intelligence</i> | • <i>Often lives alone</i> |
| • <i>College educated</i> | • <i>Often uses alcohol or drugs</i> |
| • <i>Father stable</i> | • <i>Leaves physical evidence</i> |
| • <i>Dismembers body</i> | • <i>Kills at one site</i> |
| • <i>Leaves an organized crime scene</i> | • <i>Lives or works near crime scene</i> |

Lesson 3 Assignment: Geographic Profiling

Value
10

Part A: Multiple-Choice Questions

Decide which of the choices best completes the statement or answers the question. Print the letter that corresponds to your choice on the blank next to the question.

- D** 1. Geographic profiling analyzes the locations of a related series of crimes to determine the
- A. location that the offender will hit next
 - B. location that the offender hid his or her weapon
 - C. most likely location of an offender's family or place of birth
 - D. most probable location of an offender's residence or place of work
- D** 2. Where did geographic profiling research originate?
- A. Britain
 - B. Ontario
 - C. Washington, DC
 - D. British Columbia
- C** 3. Offenders often maintain a buffer zone around their homes in which they
- A. lure and abduct their victims
 - B. choose and stalk their victims
 - C. avoid committing crimes to protect their anonymity
 - D. spend little time at to prevent recognition by neighbours
- A** 4. According to the distance decay theory, most offenders are not interested in
- A. travelling long distances to commit crimes
 - B. venturing great distances to create an alibi
 - C. driving a short distance to lure their victims
 - D. committing crimes close to their places of work

- C** 5. What was the profession of the person who developed the algorithm used in geographic profiling?
- A. Professor
 - B. FBI agent
 - C. Police officer
 - D. Mathematician
- D** 6. Criminal behaviour results from a decision-making process based on a balance between the
- A. type of victim targeted and the absence of a guardian figure
 - B. size of the buffer zone and the type of transportation available
 - C. number of witnesses present and the amount of disposable cash available
 - D. probability of being caught and the amount of effort needed to commit crime
- C** 7. In terms of generating a geographic profile, an increase in suspect's criminal activity will often
- A. decrease the odds the suspect will be arrested
 - B. increase the likelihood of eyewitness sightings
 - C. increase the chances the suspect will be apprehended
 - D. decrease the probability that several more murders will occur
- B** 8. What are the three principle elements for analyzing geographical patterns of criminals?
- A. Barriers, roads, and transportation
 - B. Distance, mental map, and mobility
 - C. Buffer zone, hot spots, and jeopardy surface
 - D. Sex, cognitive abilities, and personal security
- C** 9. In geographic profiling, "awareness spaces" are considered to be
- A. sites where vulnerable victims are abducted and attacked
 - B. areas where a suspect's fragile mental state breaks down
 - C. places where a suspect feels comfortable to seek out victims
 - D. locations where family members become aware of a suspect's behaviour

- D 10. Geographic profiling helps police investigators prioritize information in
- A. serious investigators with one transient suspect
 - B. serial crime investigations with no suspects available
 - C. murder investigations where the suspect has a serious mental disorder
 - D. large-scale investigations where hundreds of tips or suspects are available

Value
2

Part B: Numeric-Response Questions

Use the following list to answer the next question.

Events in the Clifford Robert Olson Investigation

1. Placed under surveillance
2. Brought in for questioning
3. Abducted two young female hitchhikers
4. Abducted and killed two children and nine youths

①

1. The correct sequence of steps that occurred in the Clifford Robert Olson case is 4 , 2 , 1 , and 3 .

Use the following list to answer the next question.

Possible Data Points Used in Geographic Profiling

1. Sex of suspect
2. Age of victims
3. Victim encounter sites
4. Body recovery locations
5. Victim's autopsy results
6. Public complaints or tips
7. Suspicious vehicle sightings
8. Type of injuries exhibited by victims

①

2. Data points used to create an accurate computer-generated geographic profile include 3 , 4 , 6 , and 7 .

(State your answers from lowest to highest value.)

Value
11

Part C: Written-Response Questions

Provide appropriate answers to the following. Explanations are best given in sentences.

②

1. What did Canadian Dr. Kim Rossmo contribute to the field of geographic profiling?

Rossmo successfully developed an algorithm that supported geographic profiling while completing his Ph.D. in Criminology at Simon Fraser University. (2 marks)

③

2. List six data sources used in the construction of a geographic profile.

Six data points useful in generating an accurate geographic profile - (0.5 marks each)

- ***Encounter sites***
- ***victim recovery locations***
- ***suspect residential location***
- ***suspect employment location***
- ***suspicious vehicle sightings***
- ***public complaints/tips***

③

3. Identify a criminal investigation where geographic profiling did not help to apprehend a suspect. Explain why geographic profiling was not successful in this case.

- ***Beltway Sniper Attacks (1 mark): Both men were living in their car during the shootings. There was not way to identify a pattern of behaviour incorporating travel among home, work, and recreational area. (2 marks)***
- ***Vampire Killer was irrational and erratic but profiling still pinpointed his home as being within 1.7% of total hunting area - No marks awarded for this answer.***

③

4. Describe a criminal investigation where geographic profiling was proven accurate or helped to apprehend a suspect directly.

- ***Southside rapist (1mark): The geographic profile helped reduce the suspect list to 12. The suspect lived within the hot spots of the of the geographic profile map generated even though he was not included in the original 12 suspects. (2 marks)***
- ***Olson operated in 1981 - Geographic profiling wasn't developed until 1989 - NO MARKS***
- ***Richard Chase - 1977-78 - No marks awarded for this answer.***

Lesson 4 Assignment: Criminal Profiling in Homicide Crime Case Studies

Value
10

Part A: Multiple-Choice Questions

Decide which of the choices best completes the statement or answers the question.
Print the letter that corresponds to your choice on the blank line next to the question.

Historical Crime Case Study #1: *The Railway Killers*

- A** 1. The majority of the victims that John Duffy and David Mulcahy sexually assaulted in the early 1980s were
- A. teenage girls
 - B. teenage boys
 - C. young boys and girls
 - D. middle-aged men and women
- D** 2. Why was Duffy not identified by a victim who saw him in a photo line-up?
- A. Duffy had grown long facial hair.
 - B. Duffy had changed his hair colour.
 - C. The victim had experienced a head injury.
 - D. The victim had experienced traumatic stress.
- B** 3. What type of souvenirs did John Duffy take from his victims?
- A. Hair
 - B. Keys
 - C. Jewellery
 - D. Underwear
- C** 4. During the Railway Killer investigation police, what did police obtain from each of the 5000 suspects after they were interviewed?
- A. A hair sample
 - B. A urine sample
 - C. A blood sample
 - D. A semen sample

- D** 5. After a criminal profile of the Railway Killer was completed, it was
- A. analyzed by the known eyewitnesses
 - B. used to create
 - C. released to the newspaper and television media
 - D. cross-referenced with database of all possible suspects

Historical Crime Case Study #2: *The BTK Strangler*

- A** 6. What does each letter in the acronym 'BTK' stand for?
- A. Bind, Torture, and Kill
 - B. Bold, Terrifying Killer
 - C. Brash, Terrific, and Kinky
 - D. Branded, Tied up, and Kicked
- C** 7. Who produced the name *BTK Strangler*?
- A. Kevin Bright
 - B. Joseph Otero
 - C. Dennis Lynn Rader
 - D. Deborah Schurman-Kauflin
- D** 8. What piece of evidence lead to the identification and arrest of the *BTK Strangler*?
- A. A hair
 - B. A letter
 - C. A package
 - D. A computer disc
- B** 9. All the attacks committed by the BTK Strangler in the 1970s
- A. happened during the daytime
 - B. occurred within an 8 km radius
 - C. were on females under the age of 20
 - D. were on children under the age of 15
- D** 10. When Dennis Lynn Rader was arrested, he
- A. refused to talk
 - B. committed suicide
 - C. revealed that he had an accomplice
 - D. confessed to the crimes he was suspected of

Value
2

Part B: Numeric-Response Questions

Historical Crime Case Study #1: *The Railway Killers*

Use the following information to answer the next question.

Various Behavioural and Personality Traits found in Criminal Profiles

1. Left-handed
2. Right-handed
3. Mid to late 20s
4. Mid to late 40s
5. Interested in boxing
6. Interested in martial arts
7. Lives near crime scene
8. Crime scene some distance from home

①

1. Some behavioural and personality traits stated above that Dr. David Canter predicted the Railway Killer would exhibit include 2, 3, 6, and 7.

(State your answers from lowest to highest value.)

Historical Crime Case Study #2: *The BTK Strangler*

Use the following information to answer the next question.

Description of Multiple Murders

1. Two females are killed within a 9-month period.
2. Two criminal profiles are created in a 4-year period.
3. Four members of the Otero family are murdered in their home.
4. A potential victim receives an angry note and one of her scarves.

①

2. The correct sequence of events that occurred in the *BTK Strangler* investigation is 3, 1, 4, and 2.

Value
10

Part C: Written-Response Questions

Provide appropriate answers to the following. Explanations are best given in sentences.

Historical Crime Case Study #1: *The Railway Killers*

①

1. a. After John Duffy was convicted of murder and rape, what information did he reveal to a psychologist that was surprising to police?

John Duffy revealed that he had not been working alone to commit his crimes (1mark)

①

- b. What did this revelation lead to?

John Duffy's revelation led to the arrest and conviction of David Mulcahy. (1mark)

③

2. How did criminal profiling lead to the arrest of one of the *Railway Killers*?

Criminal profiling was used to cross-reference all possible suspects on the police database. Many suspects were eliminated, and then a match led to John Duffy.

Historical Crime Case Study #2: The BTK Strangler

- ② 3. Explain whether the BTK Strangler was an organized or disorganized offender.
BTK Strangles was an organized offender. (1 mark)
Any one of the following results in 1 mark
-
- *Rader left little physical evidence at the crime scenes*
 - *Rader contacted police to 'play games'.*
 - *Rader followed the news media.*
 - *Rader was an older individual*
-
- ① 4. a. Identify the person in Dennis Lynn Rader family who helped police arrest him.
Dennis Lynn Rader's daughter assisted in his arrest (1 mark)
-
- ② b. Describe exactly how this family member helped investigators.
She provided police with a sample of DNA that they compared to semen from all the crime scenes. (2 marks)
-
-
